THE EDA'S MISSION IS...

...to establish Bay County as a globally competitive environment to conduct business, encourage economic growth that enhances our standard of living and quality of life and facilitate the creation of an environment that encourages the expansion of existing business and the location of new business.

ENTERPRISE BAY IS...

...a committee of the Bay County Economic Development Alliance consisting of private companies and individuals who are committed to quality economic growth in Bay County. Their objective is to provide additional financial resources and guidance to the EDA.

WHY ENTERPRISE BAY?

Enterprise Bay is essential for the continued success of the EDA. Bay County is approaching the tipping point of rapid growth, and the course charted today will determine the future shape and makeup of our local economy. The EDA stands ready to implement an aggressive long-term marketing plan which strives to transform Bay County into a center for quality job creation and cutting-edge technology. The financial resources at the disposal of the public-private partnership are not adequate to fully implement this marketing plan. The EDA is primarily funded through contributions from local governments and authorities and the Bay County Chamber of Commerce.

Your participation in Enterprise Bay will allow the EDA to step up its marketing efforts.
